DIGITAL INKJET PRINTER

AP-800

Digital inkjet printer is the latest new tech model machine.

The machine adopts the new latest technology, combines with digital printing technology and Inkjet printing technology, dark/light color chemical and cotton fabric can be printed by one set equipment

1. This equipment is a new generation of digital revolution, pioneering and leading the new digital Inkjet technology.
2. This equipment just need print and heat press two step to finish process
3. Brand new heat transfer printing media and unique printing effect, no weed transfer paper, perforation breathable, color performance.
4. No media and color limiltation on fabric , water prevention, fastness up to 4.5
5. Transfer temperature on fabric 160-170 degre, 10-16 seconds, Cold tear, the specific temperature accordng different fabrics
6. No need to engrave, no need cut waste ,hand feeling is good, can do fine pattern.
7. Direct printing on Digital coated PET film.
8. No restriction on fabric, can be transfered on any fabric.
9. Less investment in equipment, high output, low printing costs.

Specification

- 1) 1 Head CMYK + 1Head for White Ink.
- 2) Epson 4720 print head.
- 3) Printing resolution :
360*2400dpi/ 4pass | 360*1800dpi/ 6pass | 720*2400dpi/ 8pass
- 4) Max Priting size 600mm / 24".
- 5) Printing Speed 4 pass / 9M2, 6 pass/ 5M2, 8 pass / 3M2.
- 6) Ink type - Water Based Pigment Ink
- 7) Ink color - CMYK + W
- 8) Automatic feeding and take up
- 9) Double intelligent infrared drying system.
- 10) Auto - Head cleaning option available.
- 11) Printer comes with Rip software.

Sample

Any Fabric / Canvas Bag / Rexine

Features

Digital Printer with 2 pcs EPSON i3220 Print Head.

Automatic Hot-Melt Adhesive Powder Sprayer and Dryer Machine.

Temperature controls of the Hot Melt Adhesive Powder Spraying Machine.
